

Fall 2021

**Fleur du Lac**  
West Shore Lake Tahoe

# **SPOTLIGHT ON ... LEANN DYER**

**I grew up in the Southern California area.**

**I have 6 brothers and 6 sisters.**

**There was always someone to play with.**

**I am grateful for growing up in a large family.**

**Learned how to put your gloves on and do the job at hand.**

**We moved to the Palm Springs area when I was a teenager.**

**This is when I realized that living in the city was not for me.**

**I prefer to be out in the country or in the mountains.**

**After graduating high school, I moved straight to Lake Tahoe after visiting the area only one time.**

**I simply fell in love with all of Tahoe's beauty.**

**I worked at Angela's Pizzeria in Tahoma from 1984-1997. This is where my Tahoe family began to grow. My coworkers and our customers all became close friends, and since most of our families lived out of the area, we all needed each other and relied on each other.**

**The Tahoe way!**

**Tahoe will always be home. I'm loving my job here at Fleur du Lac. Everyone here has been so great.**

**I am happy to have met a few of the homeowners and look forward to meeting the remaining owners and their families.**

**Personally I do not ski but I have my fingers crossed we have a great winter. I may not want to ski but Buck & I are ready to go sledding and build a snowman.**

# Caldor Fire

**August 14, 2021 - October 21, 2021**  
the Caldor Fire burned in  
El Dorado and Amador counties  
in the Sierra Nevada mountains of California.

Tahoe skies were thick with smoke and  
a total of 221,775 acres burned.

All of us worried for ourselves,  
our loved ones, our homes, the  
Tahoe Basin and even the  
wildlife.

From Tahoma South, everyone  
was under a mandatory  
evacuation order, with only one  
hour's notice.

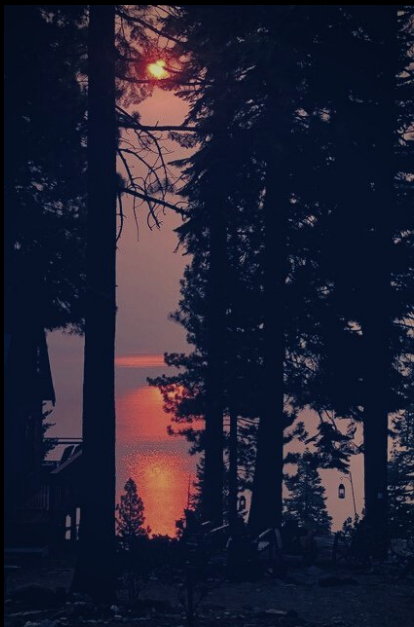

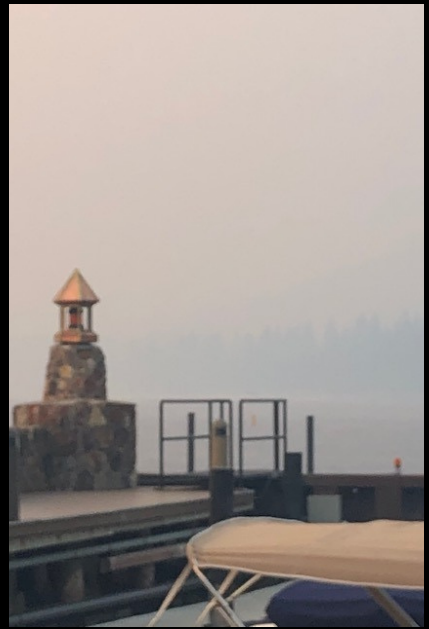

North of Tahoma, everyone was  
on stand by; we were instructed  
to be ready for evacuation at a  
moment's notice. We could not  
see the lake during the day nor  
the stars at night. The sun was a  
red ball. It was very eerie, nothing  
was normal! The air quality  
reached up in the 800's, and it  
was very difficult to breath. Our  
landscapers could not work  
outside for many days.

We are all so thankful to have  
escaped such a tragic event.

**A Great Big Thank You goes out  
to each of the responders!**
